Pure Water

Every Drop Matters!

It's the real water you need, first the plastic!

About Us

At Elemence, we believe in providing the purest form of hydration, combined with sustainable practices and environmental responsibility. Our mission is to redefine water quality by offering a fresh, crisp, and mineral-rich water experience that supports your health and the planet.

Our Values

Sustainability

We are committed to reducing plastic waste and promoting eco-friendly practices in every step of our journey.

Purity

Our water is naturally filtered to provide the purest and healthiest hydration, free from contaminants.

Quality

We adhere to the highest standards of water quality to ensure that each bottle offers optimal taste and health benefits.

Our Mission

At Elemence, our goal is to provide people with water that is as pure as nature intended. We are dedicated to offering the highest quality hydration with a focus on sustainability, health, and innovation. Join us in redefining the future of water.

Our Story

At Elemence, our journey began with a simple belief: that access to clean water shouldn't come at the expense of the planet. Inspired by nature and driven by innovation, we set out to design water solutions that are both pure and sustainable. From bamboo and clay bottles to compostable tetra packs, every product we create reflects our commitment to reducing waste and preserving the purity of our earth's most essential resource . What started as a small idea has now grown into a movement toward conscious consumption, one refill at a time.

Water Composition

Elemence water maintains a perfect balance of essential minerals for optimal hydration and taste.

- **Calcium Ca^{2+}**: 240 mg/L
  Essential for bone health and muscle function
- **Sodium Na^{+}**: 5.2 mg/L
  Balances fluids and supports nerve function
- **Nitrate NO_3^-**: 4.4 mg/L
  Low levels indicate purity and natural filtration

- **Magnesium Mg^{2+}**: 42 mg/L
  Supports energy production and muscle relaxation
- **Sulfate SO_4^{2-}**: 450 mg/L
  Contributes to water's refreshing taste profile
- **Bicarbonate**: 384 mg/L
  Natural alkalinity for a smooth drinking experience

Ultra Optipure Advantage

Our revolutionary water purification technology ensures you get the purest water with all essential minerals intact.

Superior filtration
Our proprietary 7-stage filtration system removes impurities while preserving natural minerals

Balanced mineral infusion
We carefully balance the mineral content for optimal taste and health benefits

Eco-responsible bottling
Zero plastic, zero waste packaging solutions that protect both water and environment

UV-protected storage
Advanced UV protection maintains water purity throughout its shelf life

"Our Ultra Optipure technology represents the culmination of five years of research and development, setting a new standard for water purity while maintaining environmental responsibility."

— Dr. Sarah Chen, Head of Water Science at Elemence

Why Choose Elemence

Plastic Free
Zero plastic in our packaging means zero microplastics in your water and zero plastic waste in our oceans.

Learn more

Mineral Rich
Naturally occurring minerals provide superior hydration and a crisp, refreshing taste profile.

Learn more

7-Day Service
Regular scheduled deliveries and on-demand options so you never run out of pure water.

Learn more

Certified Quality
Every batch is tested and certified to exceed international water quality standards.

What Our Customers Say

Join thousands of satisfied customers who have made the switch to plastic-free, premium water.

Sophia Chen
Busy Parent

"My family goes through so much water, and I was concerned about our plastic footprint. Elemence delivery service has been a game-changer for us – convenient, eco-friendly, and the kids love the taste."

David Rodriguez
Restaurant Owner

"Our customers expect the best, which is why we exclusively serve Elemence. Their clay bottles are not only sustainable but add a touch of elegance to our dining experience."

Emma Wilson
Health Coach

"I recommend Elemence to all my clients. The mineral balance is perfect for optimal hydration, and their commitment to environmental sustainability aligns with my values."
